PROFILE

Senior Software Engineer with **7+ years** of experience designing, developing, and scaling full-stack web applications using **PHP, Laravel, Node.js, Vue.js, React.js, MySQL, Redis, Docker, and AWS**. Expertise in REST API development, backend architecture, cloud infrastructure, CI/CD, performance optimization, and Agile software delivery.

EDUCATION

CUSAT University / ToCH Institute of Science and Technology (TIST)

Ernakulam, India

Bachelor of Engineering in Computer Science

2013 – 2017

SKILLS

Technical: PHP, Laravel, Node.js, Vue.js, React.js, Nuxt.js, MySQL, Redis, REST APIs

Cloud & DevOps: AWS, Docker, CI/CD, Git

Methodologies: Agile, Scrum

CERTIFICATIONS

- Certified ScrumMaster® (CSM) – Scrum Alliance – Jul'26 (<https://bcert.me/svwrpchnw>)

EXPERIENCE

QBurst Technologies

Kochi, India

Lead Engineer

01/22 – Present

- Architected scalable Laravel and Vue.js applications while delivering React, Flutter, and WordPress solutions.
- Managed AWS deployments through CI/CD pipelines, ensuring reliable releases and timely production support.

Floges Software Solutions

Kochi, India

Software Engineer

08/19 – 12/21

- Led a **5-member** team, delivering projects on schedule and scaling a product to **first revenue**.
- Developed Node.js, Laravel, and CodeIgniter applications, leveraging AWS, REST APIs, and CI/CD pipelines.

CloudMe

Kochi, India

Senior Laravel Developer

12/18 – 08/19

- Optimized Laravel applications, improving performance, stability, and code quality.
- Coordinated application releases and database migrations, ensuring seamless production deployments.

Brainwired

Kochi, India

Software Developer

07/18 – 11/18

- Delivered web and mobile applications aligned with client and business requirements.
- Supported application deployments and infrastructure to maintain reliable production environments.

PROJECTS

WeWork Japan

05/24 – 01/26

- Engineered a workspace booking platform supporting desk, meeting room, and shared space reservations across web and mobile.
- **Tech Stack:** Nuxt.js, Laravel, Flutter, Docker, AWS, MySQL, PostgreSQL
- Delivered new features, resolved **98% of reported defects**, and optimized SEO to improve platform visibility.

Windsor Communities

11/23 – 07/24

- Built and maintained WordPress property management websites supporting apartment discovery, floor plans, and tour scheduling.
- **Tech Stack:** WordPress
- Built custom plugins and integrated dynamic property listing pages; **delivered 2 complete websites** and managed releases across all environments.

Cut App Project

11/22 – 12/23

- Developed a B2B procurement platform enabling restaurant owners and suppliers to manage ordering workflows across web and mobile.
- **Tech Stack:** Laravel, React.js, MySQL, REST APIs
- Implemented REST APIs for ordering, inventory, and loyalty workflows while improving application performance and resolving critical system issues.

Dreamscape Platform

03/22 – 10/22

- Automated product integration and data migration using PHP while ensuring data consistency across systems.
- **Tech Stack:** PHP, MySQL, Git
- Developed backend automation scripts and maintained legacy integrations across acquired platforms.

Osmosis Learn

08/19 – 12/21

- Developed a SaaS learning platform connecting experts and learners through secure online collaboration.
- **Tech Stack:** Laravel, CodeIgniter, Vue.js, Node.js, AWS, MySQL
- Implemented secure payments, Zoom integration, and core platform features, supporting **successful product launch and early customer adoption.**

MeetClinics

04/20 – 08/21

- Developed an online healthcare consultation platform enabling users to discover doctors and hospitals based on preferences and location.
- **Tech Stack:** Laravel, Vue.js, AWS, Firebase, Flutter, Git
- Built REST APIs and core functionalities, managed AWS services, and handled application releases across environments.

CloudMe POS Platform

12/18 – 08/19

- Developed a cloud-based multi-business POS platform with simplified accounting and inventory management features.
- **Tech Stack:** Laravel, Azure, Native Android, MySQL
- Designed REST APIs, implemented backend features, and managed production releases.
